Education

Game Development Program

Israel Animation College / 2023 - Present

A 24-month training program focused on Game Development, Game Art, and Game Design, covering programming fundamentals and 3D modeling. Gained extensive experience with industry-standard practices through collaborative team projects, and delivering projects from concept to completion.

Work Experience

Customs Broker

Sky Freight Forwarding & Customs Clearance / 2020 - Present

Responsible for processing customs documentation, determining tariff classifications, and maintaining regulatory compliance for import/export shipments. Coordinate with customs authorities and clients to facilitate efficient clearance processes and documentation requirements.

Commanding Officer

Israel Defense Forces / 2018 - 2020

Commanded within a detention facility overseeing 70+ detainees, managing daily routines, intake procedures, and transfers. Worked alongside other commanding officers, trained new staff, and coordinated security operations.
